

How to Edit an Inventory Quantity Adjustment Chapter 8

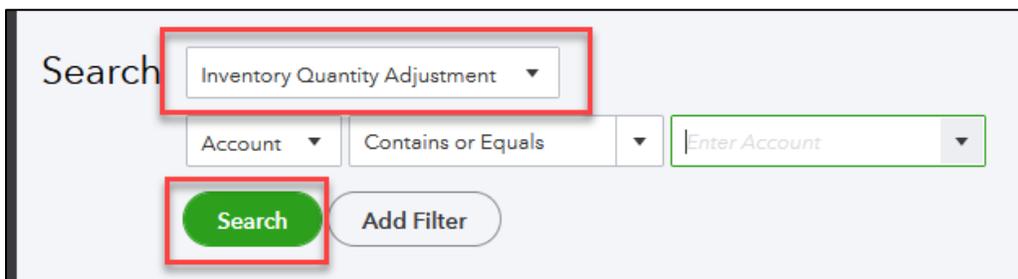

Inventory quantity adjustments are made to update inventory counts to match the actual amounts of inventory on hand. As part of an inventory adjustment you must select the inventory item(s) that need to be adjusted and the account used to offset the inventory change.

Below are the instructions to edit and update the quantity and the account used.

- Select  from the **Icon Bar**
- If your **Inventory Qty Adjust** appears in the RECENT TRANSACTIONS, select it, otherwise select **Advanced Search**.

- In the **All Transactions** drop-down select **Inventory Quantity Adjustment** and **Search** for the transaction you want to edit.

- Click on the transaction to open it up.

If you need to edit the **Quantity OF AN INVENTORY QUANTITY ADJUSTMENT** follow these steps.

- In the **Previous adjustments** area, make the necessary change to the **CHANGE IN QTY** field to reflect the appropriate change in inventory and select **Save and close**.

Inventory Quantity Adjustment #7
