### Practice Quiz

#### 1. Topic: Goodwill impairment loss: U.S. GAAP

Europe:                      \$3,840,000                      Asia:                      \$2,560,000

At the end of the year, management determines that it is more likely than not that each segment's fair value is less than its fair value. The following information is then gathered on the segments:

	<b>Fair Value</b>	<b>Book Value</b>	<b>Fair Value of Identifiable Net Assets</b>
Europe	\$35,200,000	\$30,080,000	\$32,360,000
Asia	17,280,000	17,920,000	15,040,000

The goodwill impairment loss for the year, following U.S. GAAP, is:

- a. \$ 320,000

- c. \$1,320,000
- d. \$1,640,000

Use the following information to answer Questions 3 – 6 below:

Kroft Foods acquired Codberry Inc. on January 1, 2016, for \$40,000,000, in a stock acquisition. Codberry's acquisition-date assets and liabilities were reported at amounts approximating fair value, except its inventories (FIFO) were overvalued by \$2,000,000, its property and equipment (20-year remaining life, straight-line) was overvalued by \$10,000,000, and it had previously unreported identifiable intangibles (5-year remaining life, straight-line) with a fair value of \$14,000,000. Goodwill from this acquisition was impaired by \$1,000,000 during 2016. Kroft uses the complete equity method to account for the investment on its own books. Below are the December 31, 2016 trial balances of Kroft and Codberry:
