

Chapter 10 – Financial & Managerial Accounting for Decision Makers, 2nd Edition
By Dyckman, Magee, Pfeiffer, Hartgraves, and Morse

Practice Quiz

Topic: Pension - Total Net Periodic Pension Benefit Cost Computation

LO: 4, 5

1. International Corporation reported the following items in the 2013 pension footnote (in millions).

Service cost.....	\$506
Amortization of prior service cost.....	145
Interest cost.....	490
Expected return on plan assets.....	770
Actuarial gain.....	19

Based on this information what is the total net periodic pension benefit cost?

- a. \$ 352
- b. \$1,930
- c. \$ 390
- d. \$ 62

Topic: Pension Factors

LO: 4, 5

2. Which of the following is *not* considered when estimating the annual pension expense?
- a. Compensation levels and estimated rates of pay increases
 - b. Employee turnover rates
 - c. Expected rate of returns to be earned on pension plan assets.
 - d. The current financial condition of the company

Use the following information to answer questions 3-5.

Morgan Company began operations in 2012. The company reported \$58,000 of depreciation expense on its income statement in 2012 and \$32,000 in 2013. On its tax returns, Morgan deducted \$84,000 for depreciation in 2012 and \$94,000 in 2013. The 2013 tax return shows a tax obligation (liability) of \$38,400 based on a 40% tax rate.

Topic: Deferred Income Taxes

LO: 6

3. What is the temporary difference between the book value of depreciable assets and the tax basis of these assets at the end of 2012?
- a. \$ 4,000
 - b. \$48,000
 - c. \$26,000
 - d. \$38,000

Topic: Deferred Income Taxes

LO: 6

4. What is the temporary difference between the book value of depreciable assets and the tax basis of these assets at the end of 2013?
- a. \$22,000
 - b. \$52,000
 - c. \$38,400
 - d. \$88,000

Topic: Deferred Income Taxes

LO: 6

5. What is the deferred tax liability for 2013?
- a. \$ 6,000
 - b. \$10,000
 - c. \$22,000
 - d. \$35,200

Topic: Off-Balance Sheet Financing**LO: 1**

6. During 2013, Thomas Company reported the following unconditional purchase obligations in its footnotes:

Year ending December 31, 2013	(in thousands \$)
Less than one year	87.6
1-3 years	79.2
3-5 years	4.5
5-7 years	0.5

If Thomas' total assets equal \$540,000 and its total stockholders' equity equals \$340,000, how would its debt-to-equity ratio change if it reported the unconditional purchase obligations in the balance sheet? (Ignore discounting.)

- a. It would increase by 0.32
- b. It would increase by 0.50
- c. It would decrease by 0.51
- d. It would decrease by 0.32

Topic: Leases**LO: 2, 3**

7. Lawson Company leases a machine under a capital lease. The asset is recorded at \$225,000 and has an economic life of 8 years. The lease term is 5 years. The asset is expected to have a market value of \$75,000 at the end of 5 years and a market value of \$45,000 at the end of 8 years. The lease term provides for a transfer of ownership to the Lawson at the end of the lease. Based on this information, what amount should Lawson record for depreciation expense in the first year of the lease (assuming straight-line depreciation is used)?
- a. \$45,000
 - b. \$30,000
 - c. \$28,125
 - d. \$22,500

Topic: Leases**LO: 2, 3**

8. Which of the following lease-related items would be recorded by a company who leases a machine if the lease is to be accounted for as an operating lease?
- a. Lease liability
 - b. Interest expense
 - c. Depreciation
 - d. Rent expense

Topic: Leases

LO: 2, 3

9. On January 1, 2013, Andrews Corporation signed a ten-year capital lease for machinery. The lease called for Andrews to make annual payments of \$100,000 at the end of each year for ten years. The machine has an economic life of 15 years and title for the machine would pass to Andrews at the end of the lease. The lease payments were determined to have a present value of \$671,008. If the lease has an effective interest rate of 8%, how much interest expense should Andrews record for 2013?
- a. \$80,000
 - b. \$ 8,000
 - c. \$53,681
 - d. \$32,899

Topic: Leases

LO: 2, 3

10. The following information is given for two leases entered into by Hamilton Company:

Lease 1:

- The present value of the lease payments is 75.5% of the asset's fair market value.
- No transfer of ownership

Lease 2:

- Lease term is equal to 90% of the economic life
- No bargain purchase option

Based on this information, what kind of leases are these?

- | <u>Lease 1</u> | <u>Lease 2</u> |
|-----------------------|-----------------------|
| a. Operating | Capital |
| b. Operating | Operating |
| c. Capital | Capital |
| d. Capital | Operating |
