

# New Link in the Navigation Bar

Mid-March, 2022

It looks like Intuit slipped another change in on us! The change has not been released in all company files yet, so some of you may not have seen it, but there's a new link in the navigation bar:

It includes two tabs (**drawers**): **Customers** and **Marketing**. The **Customers** tab looks and functions like the **Customers** tab in the **Sales** link. The **Marketing** tab includes information about syncing QBO with Mailchimp, a company recently acquired by Intuit. (Mailchimp is an email marketing company.)

We don't know if the change is permanent, and we don't know if any other changes are coming to either link. We will reach out to your instructor once we know more.

The change might be a bit of a distraction, but it doesn't affect your homework assignments. The only difference for you is that you will now be able to add, edit, or view customers in the **Customers** tab accessed through **either** the **Sales** or **Customers & leads** links on the navigation bar.
